MEMORANDUM FOR: All NIOs

SUBJECT : DIA Directorate for Intelligence
Reorganization

Attached for your information and background are a cable and charts which outline the new organization of DIA's Directorate of Intelligence -- effective 1 July 1975. The reorganization is designed to ensure that the Directorate of Intelligence is prepared to provide support for the Expanded National Military Command Center (ENMCC) prior to and upon completion of its five-year expansion program. DOD and DIA are billing the ENMCC as the Washington crisis management supercenter, and the only center where operations and intelligence meet to satisfy the needs of the National Command Authority.
